FIRE ALARM PLAN - FLOOR 1

SCALE: 1/8" = 1'-0"

SHEET NOTES:
1. All fire alarm equipment and protective devices shall be placed in a location such that they are readily accessible for maintenance and testing, typical to all fire alarm systems.
2. Fire stations shall typically be spaced every 20 feet or as may be necessary to prevent the fire from spreading which does not obstruct the exits or the fire at the existing points.
