

Tasks: User requests and downloads data; Metadata about download is recorded

File package structure: One package for each site includes all year currently available for that site.

Notes

- 1. Read Me:** Filename for data policy file will be Read Me.
- 2. Manifest file:** For each package of data for all available years for a site.
- 3. Data for one site for all years:** This should fit in a downloadable zip file. Data for one site for all years could be made into zip files in advance as part of the cron job, ready to be downloaded.
- 4. Data for multiple sites all years)**
- 5. Data for all sites (all years)**

Sample email messages

Message about download:
To tower PI

To:	Dennis Baldocchi <baldocchi@insitution.edu>								
From:	noreply@lbl.gov								
Subject:	Data for your tower sites has been downloaded								
Body:	<p>Dennis Baldocchi,</p> <p>Data from your tower site(s):</p> <ul style="list-style-type: none"> • US-Myb • US-Snd • US-Ton • US-Tw2 <p>for the years 2005 to 2008</p> <p>was downloaded by Rachel Hollowgrass <rhollowgrass@insitution.gov> on December 1, 2014 at 22:30 GMT for this intended use:</p> <ul style="list-style-type: none"> • Research - satellite validation <p>Description: "I am validating wetlands mapped by Envisat in 2003 for ESA's Globwetland project <http://www.esa.int/>."</p> <p>The version numbers are:</p> <table border="0"> <tr> <td>AMF_USMyb_2005_L2_WG_V007.csv</td> <td>V007</td> </tr> <tr> <td>AMF_USSnd_2005_L2_WG_V005.csv</td> <td>V005</td> </tr> <tr> <td>AMF_USTon_2005_L2_WG_V002.csv</td> <td>V002</td> </tr> <tr> <td>AMF_USTw2_2005_L2_WG_V005.csv</td> <td>V005</td> </tr> </table> <p>This information is for your records. Followup message:
To user who downloads data 3 months later

To:	Firstname Lastname <email@insitution.edu>
From:	noreply@lbl.gov
Subject:	How did you use the AmeriFlux data?
Body:	<p><firstname lastname>,</p> <p>X months ago you download data from these AmeriFlux tower sites:</p> <ul style="list-style-type: none"> • US-Myb • US-Snd • US-Ton • US-Tw2 <p>for the year 2005</p> <p>The PI(s) for these site(s) are: Dennis Baldocchi <baldocchi@insitution.edu></p> <p>Your intended use was:</p> <ul style="list-style-type: none"> • Research - satellite validation <p>Description: "I am validating wetlands mapped by Envisat in 2003 for ESA's Globwetland project <http://www.esa.int/>."</p> <p>Did you use this data for a publication? If so, please inform the PI and add the publication to the AmeriFlux website: http://ameriflux.lbl.gov/community/publications/add-a-publication/</p> <p>For web-related issues, contact the AmeriFlux Web Team at: ameriflux-web@lbl.gov</p> <p>For data issues, contact the AmeriFlux Data Team at: ameriflux-support@lbl.gov</p> <p>Thank you, The AmeriFlux Project</p>

Notes

Language shown is **draft**. It needs to be edited for tone and probably content.

There may be multiple PIs to go with any requested file package(s). Each PI will need a customized email message as shown.

- To tower PI:** Multiple sites, all years available.
- Optional description section:** Shown. If user did not supply a description, do not show any description section.
- To user who downloaded data:** May include multiple sites, range of years, multiple PIs, description.
