

Minutes of the NS Division ES&H Committee

May 12, 2006

Review of minutes from April Meeting

Electronic AHD submission

- Laser AHD's are most important
- Main focus is on Divisions with high laser usage; NSD is not one of these divisions
- Only critical AHD for Nuclear Science is #3187 (Currently on L. McLouth's desk)
- OK to continue with paper AHDs

RAMA Clean-up incident

- Contamination found during survey
- Hot spots found on tech's kneepad and two areas where tech was working
- Unsure if a body count was done to check for uptake
- Contamination was probably from old equipment being stored on vault roof
- Most likely to be an RWA violation; Not an occurrence

Action Item: Recommend test to see if anything was breathed in by tech

Self-Assessment Prep

- June 30 is end of SA year
- Report due first week of July; MUST Show documentation
- Criteria is located on NSD website
- Review of CATS/LCATS; Open items will be assessed
- B70 findings have been closed (3 items remaining)
- B71 almost completed
- B50 findings to be completed
- B88 large amount of findings have been corrected; some items still remain, may take awhile (Lead bricks, etc.)
- Discussion of hazards of lead bricks; over 600 lead bricks in B88

Waste Minimization

- Submit any example of waste minimization Paul Fallon
- Project reviews will give examples also
- Have you discussed this as a group? Any documentation?

Communication

- Do you discuss safety at group meetings?
- Any documentation you have can be included in SA Report; Any records of OJT also
- Help is needed by whole committee to submit examples for report

B88 Walkthrough (offices)

- Monday, May 15, 3:30pm
- All other areas have been completed
- Seismic issues: Focus on heavy items and items that will block exits

Misc. Committee Issues

- New committee member: Daniela Leitner is replacing Augusto Machiavelli
- Still awaiting replacement for Ralf Sudowe
- Next meeting: End of June (3rd week)
- Draft of SA report: Second week of June
