Morgan Askins, University of California, Davis
Darcy Barron, University of California, San Diego
Gary Binder, University of California, Berkeley
Richard Bonventre, University of Pennsylvania
Cornell Brett, California Institute of Technology
Huajie Cao, Princeton University
Kuon Choi, Nagoya University
Clara Cuesta, University of Washington
Carlos Faham, Lawrence Berkeley National Laboratory
Rodrigo Fernandez, University of California, Berkeley
Viviana Gammaldi, Universidad Complutense Madrid
Lauren Gilbert, University of California, San Diego
Graham Giovanetti, University of North Carolina, Chapel Hill
David Girardelli, Universidade Estadual de Campinas
Miguel Gomez, University of Texas, Arlington
Evan Grohs, University of California, San Diego
J. Patrick Harding, Los Alamos National Laboratory
Roman Hiller, Karlsruhe Institute of Technology
Daniel Hogan, University of California, Berkeley
Annika Hollnagel, Hamburg University
Tenzing Joshi, University of California, Berkeley, and Lawrence Livermore National Laboratory
Felix Kalhoefer, Oxford University
Katayun Kamdin, University of California, Berkeley
Luke Kippenbrock, University of Washington
Philipp Klos, Institut für Kernphysik, Technische Universität Darmstadt
Cheng-Hsien Li, University of Minnesota, Twin Cities
Kai Loo, University of Jyvaskyla
Alejandro Lopez, University of Michigan, Ann Arbor
Yixiong Meng, University of California, Los Angeles
Michelle Mesquita de Medeiros, Federal University of Goias
Lars Mohrmann, DESY
Kiseki Nakamura, Kyoto University
Joseph Ouellet, University of California, Berkeley
Matteo Palermo, Max-Planck-Institut für Physik, Munich
Amol Patwardhan, University of California, San Diego
Rebecca Reesman, Ohio State University
Joshua Renner, University of California, Berkeley, and Lawrence Berkeley National Laboratory
Andrew Renshaw, University of California, Irvine
Miguel Rocha, University of California, Irvine
Bakhtiyar Ruzybayev, University of Delaware
Emily Shields, Princeton University
Jutta Schnabel, Erlangen Centre for Astroparticle Physics
Anneli Schulz, DESY
Danielle Speller, University of California, Berkeley

Lorrie Straka, University of Chicago
Mark Strother, University of California, Berkeley
Volodymyr Takhistov, University of California, Irvine
John Tatarowicz, Temple University
Margherita Tenconi, CSNSM and Université Paris-Sud XI
Pierce Weatherly, University of California, Irvine
Shawn Westerdale, Princeton University
Stephanie Wissel, University of California, Los Angeles
Wenqin Xu, Los Alamos National Laboratory
Lili Yang, Arizona State University
Jing Zhou, University of Chicago
Xiaoyu Zhu, University of California, Los Angeles
