About Dr. Alvarez's Role in DC (2010-2011)

Information Systems Journal Article 2008

Organizations

Information Technology Division

NLCIO: National Lab CIO group (formerly SLCCC)

UC ITLC: University of California Information Technology Leadership Council

Welcome to the Office of the CIO, Rosio Alvarez, PhD.

Dr. Alvarez is the Division Director for the Information Technology Division as well as the Chief Information Officer.

Information about these responsibilities falls under three main websites:

- Information Technology Division - Provides information about the services provided by IT to the Laboratory.
- Office of the Chief Information Officer - This Site. Provides information about the policy, assurance, and risk management activities associated with lab-wide IT and Cyber Security.
- Cyber Security - Provides operational information about the cyber security program.

The Office of the CIO works to ensure that IT policy and oversight is aligned with the fundamental goals and character of Berkeley Lab. To do this we:

- Participate strategically in DOE and federal policy-making activities, including participating in and providing policy analysis to both the National Lab CIO group (NLCIO) and the DOE Information Management Advisory Group (IMAG)
- Conduct high-quality risk analysis to guide local IT and cyber decision-making
- Ensure that local policy and guidance reflects changing risks and priorities
- Develop assurance systems that demonstrate our risk management approach

Information Technology Policy

LBNL Policy, Procedures, and Requirements Management for IT and cyber security.

Privacy

LBNL Privacy Policy and requirements for Protected Information, including personally identifiable information (PII) and personal health information (PHI).

The Deputy CIO acts as the designated Privacy Official for the Laboratory, coordinating the efforts of diverse stakeholders and stewards in support of UC's Privacy Principles.

Assurance

Plans and reports for IT and cyber security that provide assurance that we are meeting our requirements and performing as intended.
