D. Policy Statement

1. Special financial terms and conditions are only considered when specifically requested by a sponsor. Most special financial terms are associated with non-federal awards. However, there are instances when federal sponsors require additional processing, and these instances are governed by this policy.

2. There are a number of sponsors with special financial terms and conditions for Work for Others Exceptions previously approved by the Office of the Chief Financial Officer (OCFO). A sponsor is added to the list of special terms once approved.

3. The following items are considered Berkeley Lab's standard requirements for non-federal WFO agreements.
   a. Receipt of a 120-day advance payment (four highest months of costs) prior to the start of work on the award (see the Advance Payment Requirement for Non-Federal Work for Others (WFO) Sponsors policy)
   b. Maintenance of a 120-day advance payment throughout the period of performance (POP) of the contract until such time as the advance paid + invoice payments = contract funding limit and the advance balance is drawn down (see the Advance Payment Requirement for Non-Federal Work for Others (WFO) Sponsors policy)
   c. Full advance for agreements that have an estimated cost of $25,000 or less or that have a completed performance in 90 days or less (see the Advance Payment Requirement for Non-Federal Work for Others (WFO) Sponsors policy)
   d. Monthly invoices with payment due upon receipt of the invoice
   e. If a sponsor requests a substantive change to the standard requirements, a Request for Special Financial Terms For Work For Others form should be initiated for the following:
      i. Special handling terms, such as
         1. Electronic billing, including an uploaded invoice or file to the sponsor's payment system
         2. E-mailed or faxed invoices to multiple locations or recipients, or invoices submitted in duplicate
         3. The use of the sponsor's special invoice template or format
      ii. Special billing or payment periods, such as scheduled billings, manual billing in foreign currency, or payment terms rather than due upon receipt
      iii. Monthly or other periodic invoices with additional requirements, such as
         1. Invoice certifications, letters of truth and accuracy, or notarized invoices
         2. Invoices accompanied by financial reports matching scientific tasks or milestones to invoice costs
         3. Inclusion of spend plans
         4. Submission of the final invoice and/or financial report no later than 60 days after the contract end date
         5. Budgets or receipts for items purchased
         6. Payment withholds (retention) until receipt of final reports or task completion or award close out
      iv. Advances insufficient to cover the 120 days or four months of highest costs
      v. Waiver of advance requirement to cover the 120 days or four months of highest costs
